MINISTERIAL REPORT

Two hundred and fifty dollars from the interest earned by this fund was used to pay the minister for his services during the summer of 1935.

LUCY B. HOUGHTALING, Committee.

LIBRARY REPORT

Sixty-one books were purchased with the appropriation of \$15.00. Of these, nine were non-fiction. A reading table, given by H. D. Bultman, and new curtains will add greatly to the attractiveness of our library.

\$10.00 was paid to Nellie Hunt for her services as librarian. The library was opened twenty-five times and seventy-two persons borrowed books. The school has also been supplied with children's books to be circulated under the direction of the teacher.

We extend our thanks to all who have contributed to the success of the library.

Respectfully submitted,

LUCY HUNT,
GLADYS WEAVER,
BEATRICE HAMILTON,
Library Committee.

REPORT OF SCHOOL COMMITTEE

To the Citizens of the Town of Mount Washington:

The expenditures incurred by the School Department, a statement of various reimbursements, together with the budget for 1936 are herewith submitted.

Owing to the increased number of pupils attending High School and the necessity for the repairs on the school building, it will be necessary to ask for \$300.00 more than last year.

After careful consideration, your committee has placed in the budget an amount of \$150.00 as the estimated cost to shingle the outside of the school with asbestos slate. We feel that it would be more practical to recommend shingling than to paint the building.

We have placed an item of \$50.00 in the budget for equipment.

By a unanimous vote of the committee an exchange of stoves was made and a larger oil heater installed.

There should be some provision made for lighting the school but your committee has not as yet found any solution to the problem.

Respectfully submitted,

W. A. HUNT,
HOWARD PORTER,
LEWIS HOUGHTALING.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and the Citizens of Mount Washington, Mass.:

I herewith submit my sixth annual report.

The suggestions made by the School Committee relative to repairs on the North School are very necessary. Some of the desks and seats at the school need to be replaced.

Owing to the difficulty which we had with heating the building, it was necessary to change stoves.

The other increase in cost has been due to the additional number of pupils attending High School.

The pupils attending the various High Schools continue to do satisfactory work which is in itself evidence of the high standing which we are maintaining in our elementary school.

I take this opportunity of thanking you for your co-operation during the past year.

Respectfully submitted,

CHARLES L. STEPHENSON.

REPORT OF SCHOOL NURSE

January 15, 1936.

Mr. Charles L. Stephenson,
Superintendent of Schools,
Mount Washington, Mass.

My dear Mr. Stephenson:

The following is the report of the nursing service for the school of Mount Washington for the year 1935.

We have continued with interest our work in bandaging and studies of accidents in the home and how to prevent them. I suggested to Miss Hodgkins and the children the possibility of working up a play based on this classwork. They followed out the suggestion and presented a play at the joint 4 H Club and Health Day exhibition.

Before the yearly physical examination by Dr. Harold W. Stevens, the children were weighed and measured, and vision and hearing tested. There is still much room for improvement in posture.

The homes of all the children have been visited to discuss their physical condition and also to discuss the tests for tuberculosis and scarlet fever.

The Board of Health and the School Committee followed out the recommendation of the Department of Health and provided a clinic for tuberculin testing of school children—a continuation of the Chadwick Clinic. The parents of all the children requested this treatment and Dr. Charles E. Gill of the State Sanatorium in Westfield gave the test and the result in each case was a negative reaction showing no evidence of childhood type of tuberculosis.

At the request of the School Committee and the Board of Health, Dr. Stevens gave the Dick test to the seven school children and one pre-school child. Two were found to be immune to scarlet fever; the other six children received a course of three injections of scarlet fever toxoid and will be given another Dick test in six months.

I think the parents of the school children are to be commended for their interest in using all resources available to the community, and I greatly appreciate the co-operation of the teachers, School Committee and Board of Health.

Yours very truly,

ESTELLE H. KEZER, R.N.,
School Nurse.
